PRESS RELEASE

Innovative Product Design (IPD EXPO -2023)

Chandigarh College of Engineering and Technology (Degree Wing), Sector-26, Chandigarh, organised Innovative Product Design (IPD EXPO-2023) Project Exhibition on 22nd November 2023. More than 350 Students of 4th, 3rd and 2nd year (Batches 2020, 2021 and 2022) of branches CSE, ECE, ME and Civil Engineering of CCET (Degree Wing) participated in the IPD EXPO - 2023 with great enthusiasm. The innovative projects included Pre-earthquake survey of Tricity buildings, Earthquake alarm, Driving simulator, Automatic solar panel, Vehicle millet oven and wireless electricity etc.

Ms. Hargunjit Kaur, IAS, Secretary Technical Education, Chief Guest for IPD EXPO-2023, inaugurated the exhibition. She appreciated the students for their hard work and innovation in the field of Engineering and Technology. She also encouraged the efforts of the college to take up such initiatives which give students a real-time exposure to implement ideas into reality which helps to solve many real-world problems, and wished them a successful future.

Dr. M. S. Gujral, Principal, CCET also appreciated the students' hard work and active participation in this exhibition to make it a great success. Dr DS Saini, President IIC and HOD ECE department, appreciated the innovative concepts brought up by student in their product designs. The Jury members evaluated the student projects on the basis of Innovation, Concept Clarity, Team work, Society Relevance and Presentation.
